Children Bedroom Promotio

Pedroom kids

Expert Children's Bedroom Planner

A child spends approximately 12-16 hours a day in their room. The main activity is sleeping coupled with grooming, studying and numerous moments of play time. A kid's room design should consider the child's personality, age, parent's budget and the different purposes for the room. Within this exhibition, we released one set of children's bedroom in four different colour for your satisfication.
